DEPARTMENT OF COMPUTER SCIENCE

UNIVERSITY OF COPENHAGEN

To whom it may concern

**Reference letter for William Paul Bullock**

It is my pleasure to write this letter of support for William Paul Bullock. I know William through my role as supervisor on a project during his MSc in Bioinformatics on the topic of using Machine Learning for modelling patterns in biological sequences.

William is a skilled, motivated and hard-working student. He showed a keen interest in the project, and was willing to put in the hours needed to master the required methodology (in this case Convolutional Neural Networks). He expresses himself clearly both in writing and in oral presentations, and managed to get a lot done within the limited time available. He was a pleasure to work with, and I would expect him to perform well both in a team and an individual setting.
